

ESI Technologies Group, part of the Indutrade Group, is the leading supplier of Process Equipment & Engineering Solutions into the Pharmaceutical, Chemical and Biotechnology Industries in Ireland & UK. We are recruiting for the following position:

Field Service Engineer

Based from our Cork headquarters & reporting to the Operations Manager this position is responsible for the inspection, repair, and assembly of Process Control equipment sold or serviced by ESI Technologies.

Duties of the role include:

- Field Service work of product located on site including Pumps, Controls valves and other equipment (both under warranty & chargeable).
- In-house service including Assessment, Repair & Overhaul of equipment returned to ESI as part of RMA procedure (both under warranty & chargeable).
- Technical liaison with Service Co-coordinator supporting company service quotations, orders and other related department or management requirements.
- Responsibility for upkeep / maintenance of workshop – Including company Tools, Equipment & Assets.
- Adherence to companies ISO 9000 Quality, and Health & Safety procedures.
- Other duties as required by the company senior management.

Knowledge, Skills, and Abilities:

- High level of knowledge/expertise of mechanical & electronic process control equipment.
- Technical problem solving & trouble shooting ability.
- The ability to work on your own initiative and as part of a team.
- A flexible and innovative approach to work.
- Excellent interpersonal / communication skills.
- The ability to work with people at all levels of the organization both internally and externally.
- Role does require travel in Ireland & overnight stays on occasion.

Minimum education and work experience required:

- Mechanical engineering academic &/or trade qualification.
- Electrical/Electronic engineering experience &/or qualification would also be advantageous.
- Min 3-5 years related industry work experience in repairing, overhauling, assembling mechanical capital equipment such as process pumps, valves & other such equipment.

Contract type: Permanent – Full time role.

Remuneration package is commensurate with experience.
