

ESI Technologies Group, part of the Indutrade Group, is the leading supplier of Process Equipment & Engineering Solutions into the Pharmaceutical, Chemical and Biotechnology Industries in Ireland & UK. We are recruiting for the following position:

Field Service Engineer

Based from our Cork headquarters & reporting to the Operations Manager this position is responsible for the inspection, repair, and assembly of Process Control equipment sold or serviced by ESI Technologies.

Duties of the role include:

- In-house service assembly/overhaul/test of product portfolio sold by ESI with focus on valve related items.
- The role will consist of a mix of work both in ESI workshop and on customer sites including overnight stays.
- Trouble shooting and repair of customer products and providing accurate repair reports.
- Operation of company related equipment such as Forklifts, Tools & Testing equipment.
- Responsibility for meeting related workshop schedules in coordination with company requirements.
- Ensure appropriate safety guidelines including the use of personal protective equipment are adhered to.
- Upkeep / maintenance of workshop – Including company Tools, Equipment & Assets.
- Adherence to companies ISO 9001:2015 Quality, and Health & Safety procedures.

Knowledge, Skills, and Abilities:

- Self-starter with the ability to work on your own initiative and, also as part of a team.
- High level of knowledge/expertise of mechanical & electronic process control equipment.
- Technical problem solving & trouble shooting ability.
- A flexible and innovative approach to work.
- Excellent interpersonal / communication skills.
- The ability to work with people at all levels of the organization both internally and externally.
- The ability to write detailed reports such as site visits, repair reports.
- Role does require travel in Ireland & overnight stays on occasion.
- Mechanical engineering academic &/or trade qualification.
- Electrical/Electronic engineering experience &/or qualification would also be advantageous.
- Related industry work experience in repair.

Additional Information:

The above statements are intended to describe the general nature and level of work being performed by people assigned to this classification. They are not intended to be construed as an exhaustive list of all responsibilities, duties and skills required of personnel so classified. This reflects the job as it is now. We periodically examine our people's job descriptions and update them to ensure that they reflect the job as it is being performed, or to incorporate any changes being proposed. This procedure is conducted in consultation between the company and the job holder. We aim to reach agreement on reasonable changes, but if this is not possible, ESI reserve the right to insist on changes following consultation.

This is a great opportunity for a highly motivated technical sales & customer orientated person to join our company with a focus on supporting our Ire & UK business & being part of a growing team.

Remuneration package is commensurate with experience.
